

HARGER

HARGROUND

HIGH COMPRESSION CONNECTION
Safety Training and Certification

This training provides your team with understanding of Harger's HarGround High Compression Connections. The compression process is a means of making permanent electrical connections. Proper training is essential for safely making high quality electrical connections.

SAFETY FIRST

You are ultimately responsible for your own safety and safety of others

Topics covered include:

- Definition and benefits
- Proper handling and care/cleaning of tools
- Installation and inspection
- SAFETY and required PPE

Attendees become certified!

How Do You Get Started?

- Work with your Harger Sales Representative to select a date and time that works best for you and your team.
- Duration of class is dependent on number of attendees.
- Upon completion of training, attendees must pass a test to obtain certification.
- Individual digital certifications will be sent after successful class completion.

Schedule your class today!

In-person class plus a hands-on session

- Certificates valid 36 months from date of class
